-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Applicant's arguments filed 4/29/05 have been fully considered but they are not persuasive. The Amendment submitted by Applicant does not overcome the rejection made by Examiner in the last Office action and for the following reasons:

Claims 1-6, 14 and 17-21 are rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for the use of melamine base resin and one reactant compound and fatty acid, does not reasonably provide enablement for the use of "at least one melamine base resin and at least one reactant compound---and combinations thereof" in claim 1 or "at least one reactant compound further comprises a fatty acid in that the amended claim 3 requires the presence of at least two components, a melamine base resin and a reactant compound wherein at least one reactant comprises a cashew nut shell liquid---; and a fatty acid, and combination thereof" . The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention commensurate in scope with these claims.

Note that the claims, as amended, are very broad and are not included from the teachings of the Specification.

Claims 1-27 are rejected under 35 U.S.C. 103(a) as being unpatentable over Chem Abstract 119: 161751 or 112: 181468 or 124: 205109 or 115: 258415 or 113: 213128.

The rejection is maintained for the reasons as stated in the last Office action and for the following reasons:

Applicant argues that the references do not disclose the melamine ring containing copolymer of formula I. Applicant is correct in stating that. However, the claimed formula I is very broad with so many variations and no mechanism has been established how to arrive that formula. That means the products of the claimed formula must be derived from the claimed process 14 with the reactants and derivatives.

Note also that all of the references disclose the reactants under process conditions of the original claims, therefore, the claimed product of formula I must be considered inherent in the prior art. unless Applicant provides evidence to show that they are different.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 1711

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
